DOB: 10/18/1945 Age: 79  
Sex: M Fasting: Y  
Phone: (407) 739-6491  
Patient ID: 12621631

Specimen: TZ761522U Collected: 01/15/2025 09:37  
Requisition: 0034848 Received: 01/15/2025 09:38  
Lab Reference ID: G671987029 Reported: 01/16/2025 02:02  
Report Status: FINAL

Client #: 66007284 COUNTY(FPMG)  
GERBOC,JASON 1210 WATERMAN WAY  
UROLOGY SPECIALISTS OF LAKE TAVARES, FL 32778-5229  
Phone: (352) 343-2364  
Fax: (352) 253-0022

### PSA, TOTAL

CURRENT RANGE OVER TIME

#### PSA, TOTAL ?

0.79

Reference Range: < OR = 4.00 ng/mL

The total PSA value from this assay system is standardized against the WHO standard. The test result will be approximately 20% lower when compared ... [Show More](#)

#### Performing Sites

TP Quest Diagnostics-Tampa, 4225 E Fowler Ave, Tampa, FL 33617-2026 Laboratory Director: Weston H Rothrock MD

### PSA, TOTAL

#### Prostate Specific Antigen (PSA)

PSA is made by both cancerous and noncancerous prostate tissue. A high level of PSA in the blood may indicate cancer, but also may be a sign of other conditions, such as an inflamed prostate. Also, some men have higher PSA levels in the blood than others.

PSA levels are typically measured annually during a man's physical exam and the results are interpreted over time to decide on follow-up. As of 2018, the recommendations for PSA screening have changed. The U.S. Preventive Task Force recommends that men between the ages of 55 and 64 years should determine with their healthcare provider of the need for periodic PSA testing.

You can learn more about the PSA test and prostate changes over time by [clicking here](#).
